

**AZQS-B(8)V1**  
**AZQS-BY1**

- Notes:
- 1 Depending on operation and installation conditions, the indoor unit can change over to freeze-up operation (indoor de-icing).
  - 2 To reduce the freeze-up operation (indoor de-icing) frequency, it is recommended to install the outdoor unit in a location not exposed to wind.
  - 3 In case of high humidity conditions (>92%) in this  operation area, an RZQG model should be used instead of an RZQSG model. This to avoid freeze-up of the outdoor unit.
