

Legend

dBA = A-weighted sound pressure level (A scale according to IEC).

A	Scale	Cooling	Total dB	Heating	Total dB
		A	B	A	B
B	Fan speed: High	dBA	48	dBA	49

Notes

- Operating conditions: power source 220-240 V/220 V 50/60 Hz; JIS standard
- Background noise already taken into account.
- Operating noise varies depending on operation and ambient conditions.
- The operation noise measuring method is in accordance with JISC9612.
- Measuring location: anechoic chamber
