

dBA = A-weighted sound pressure level (A scale according to IEC).

- A Scale
- B High-tap
- Medium-tap
- C Low-tap

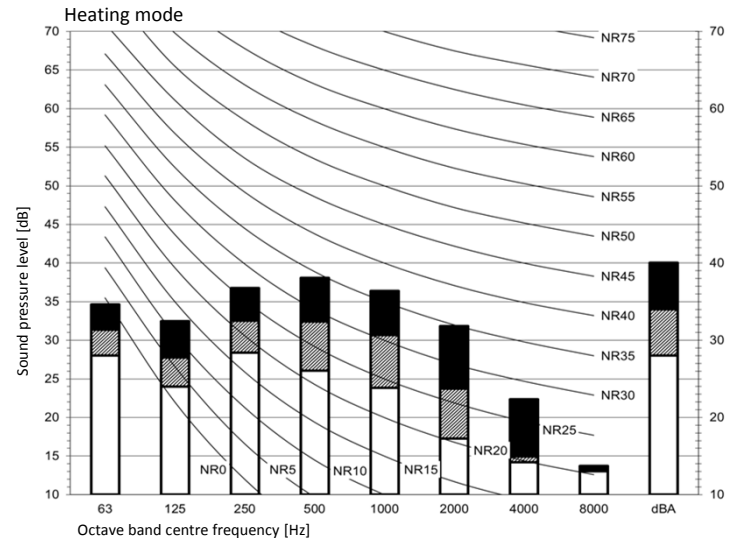

The operation noise measuring method is in accordance with JIS C9612.

Measuring location: anechoic chamber

Cooling	Total dB	
	A	B
dBA	38	25

Background noise already taken into account.

Operating conditions: power source 220-240 V/220 V 50/60 Hz; JIS standard

Heating	Total dB	
	A	B
dBA	40	28

Background noise already taken into account.

Operating conditions: power source 220-240 V/220 V 50/60 Hz; JIS standard

Notes  
Operating noise varies depending on operation and ambient conditions.
