8	Sound reduction kit for BSVQ box		EKBSVQLNP (See note 3)				

4TW30329-1C

NOTES

1. All options are kits.
2. Only required for technical cooling (outdoor temp < - 5° C).
3. Only available for standard BSVQ boxes (not possible for central BSV4Q).
   Allows to reduce operating sound of BSVQ-box (requires 1 sound kit per BSVQ-box).
4. Factory pre-assembly of 4x BSVQ100P.
5. Indoor units which are not connected to a BSVQ box, will only operate as cooling only units.
   For indoor units used for cooling only, the total capacity index must be 50% or less than the capacity index of the outdoor unit.
