

Cooling

Heating

NOTES

- 1 These figures assume the following operation conditions:
Indoor and outdoor units:
Equivalent pipe length: 7.5m
Level difference: 0m
- 2 When outdoor temperature is more than 46°C, cooling capacity may be small for protection control of unit.
- 3 Depending on operation and installation conditions, the indoor unit can change over to freeze-up operation (indoor de-icing).
To reduce the freeze-up operation (indoor de-icing) frequency it is recommended to install the outdoor unit in a location not exposed to wind.
