

Legend

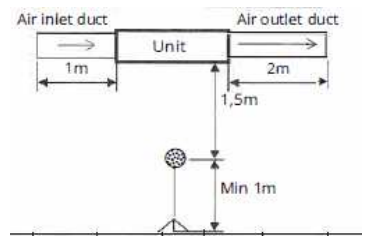

A dBA = A-weighted sound pressure level (A scale according to IEC).

- B High
- C Medium
- D Low

Cooling	Total dB			
A	B	C	D	
dBA	41,5	38,0	34,0	

Heating	Total dB			
A	B	C	D	
dBA	42,0	38,5	34,0	

Location of microphone

Notes

- Operating conditions: power source 220-240 V/220 V 50/60 Hz; JIS standard
- Background noise already taken into account.
- Operating noise varies depending on operation and ambient conditions.
- The operation noise measuring method is in accordance with JISC9612.
- Measuring location: anechoic chamber
