

4D082357

NOTES

- Over All (dB):
(B. G. N is already rectified)
- Operating conditions:
Power source: Single phase 50Hz 220-240V
Model: VKM80GB
Ventilation mode: total heat exchange

Scale	Air flow rate		
	U-H	H	L
A	41.5	39	37
C			

- Measuring place:
Operation noise is measured in an anechoic chamber.
The operation noise level become greater than this value depending on the operation conditions, reflected sound, and peripheral noise.
Operation noise differs with operation and ambient conditions.
U-H: Ultra-High, H: High, L: Low
- Location of microphone:
