

# VAM250FC9 (230V)

### Notes

- Data is valid at nominal operation condition.
- dBA = A-weighted sound pressure level (A scale according to IEC).
- Operating noise varies depending on operation, installation, and ambient conditions.
- Measuring location: anechoic chamber

Total dB

Scale	Air flow rate		
	U-H	H	L
A	28.5	26.5	21.5
